SOUL IN *your* HOME

SOULFUL LIVING

What is the essence of our unique brand style? For me, it lies in the seamless blend of classic and robust elements with a modern design language. This commitment to authenticity and creative innovation, is rooted in the soul of our brand and extends to all our interior, retail, and hospitality projects.

For example, I often encountered the challenge of finding the right atmospheric, yet functional floor lighting. Out of this necessity, EIVISSA was born. This atmospheric lighting fixture is crafted using the age-old art of papier-mâché, the main ingredient of which is recycled paper. This method only made its appearance in France in the 17th century. Long before that, in 200 BC, this technique was already used in China. And even today we still apply this technique because it is the perfect material to create this large floor lamp, providing the needed strength without making the lamp unnecessarily heavy.

We live in a consumer society where pure raw materials are becoming increasingly scarce and slowly unaffordable. Therefore, as a stylist I find it crucial that we are mindful of our materials and start to repeatedly recycle them.

"I still reflect my own childhood memories in my designs."

When I am looking for fresh ideas or need to recharge, I have to move. Daily life is an endless source of inspiration to me. I read a book, visit my favourite shops or go on a nice trip, and my soul is filled with new energy and impressions.

Everything I design, I try to make as timeless as possible. We may respond to trends which automatically leads to more replaceable items, but I still strive to create collections with a timeless look and feel.

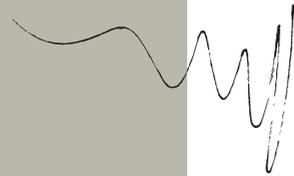

Quality is at the heart of it all. Although we have been an established name for years, we want to keep a fresh perspective. We are always looking for new ways to be more mindful about the way we create, improving the premiumness of our products and producing more basic timeless collections. It is our responsibility to provide an offering that is right for our customers today and tomorrow.

"I connect authenticity with realness and purity, but also to sticking to your personality as a brand."

A home, to me, is more than just a place where I feel at ease—it is a sanctuary to unwind, recharge, and even be a bit silly when the mood strikes. It is a canvas where I can express myself, surrounded by things that bring joy, both material and immaterial. It is a place where souls travel and meet.

Our ANDALUCIA collection perfectly embodies this ethos. The richness and raw materials, sourced from recycled and reclaimed wood, tell a tale of history from the demolition of old houses. These materials, bearing scars and character, share a part of their story. The fusion of aged elements in contemporary designs adds an intriguing touch, making it authentic, yet versatile for various interiors.
