ARCHITECT OF TIMELESSNESS

When I am looking for fresh ideas or need to recharge, I have to move. Daily life is an endless source of inspiration to me. I read a book, visit my favourite shops or go on a nice trip, and my soul is filled with new energy and impressions. Everything I design, I try to make as timeless as possible. We may respond to trends which automatically leads to more replaceable items, but I still strive to create collections with a timeless look and feel.

Lulu and Pippa to me, are sofas in which you wanna lounge all day and night. You prefer not to leave its coziness, so you happily cancel all your (evening)plans to have a date with your true love, your sofa. I decided to make the seating area extra deep for more comfort. Their inviting and soft character draws you to them, to never leave again.

I've chosen a linen fabric for the natural and bohemian feel. I'm a color person and therefore like to add a touch of color to my interiors. Colours have the intention to give energy, life and warmth to things. I'd say dare to be bold and skip the beige! ;-)

Both Pippa and Lulu exist with a loose cover, so it can be switched easily as people like to change things up in their home from time to time. On top of that, you can easily wash your cover when it's a loose one. The linen and bit oversized fabric gives the sofas an extra casual look. The fabrics are stonewashed, which makes them softer and gives them a nice nonchalant appearance.

Quality is at the heart of it all. Although we have been an established name for years, we want to keep a fresh perspective.

We are always looking for new ways to be more mindful about the way we create, improving the premiumness of our products and producing more basic timeless collections. It is our responsibility to provide an offering that is right for our customers today and tomorrow.

“I still reflect my own childhood memories in my designs.”

From field to fibre, from yarn to fabric, added value is created in Europe. There's even one linen fabric with roots in our own little country Belgium.

Discover our sofas and let us welcome you to the world of linen!
